

Reuse Center

We accept donations of anything you'd encounter on a jobsite or in a hardware store: appliances, doors, cabinets, windows, tools, flooring, tile, lumber, and much more!

501(c)(3) nonprofit

Founded in 1993, our store is open to the public six days per week. Our mission is to keep good materials out of landfills and help build long term financial stability through successful home ownership, maintenance, and skills development.

Low- and moderate-income residents are our main customers, representing roughly 75% of our sales. We offer affordable workshops to build skills across a range of trades—everything from wall framing to tiling.

We keep reusable materials out of landfills to the tune of about \$2 million each year, and improve the lives of thousands of people by providing the resources to uplift their living space affordably and develop lifelong skills.

Free pickups in a 16-foot box truck
